

SUCCESS THROUGH THE POWER OF SUGGESTION

TheSuggestionPlace

THE SUGGESTION PLACE IN 6 STEPS

1 Request

2 Respond

3 Assess

What is it?

The Suggestion Place is an online application that allows you to harness the full potential of suggestions from all areas within your organisation. All types of suggestions can be produced from cost saving and revenue generating through to employee engagement and customer satisfaction. Once captured suggestions are able to be reviewed utilising principles from some of the worlds 'best practice' improvement frameworks. Once a suggestion passes the review process it is then approved, implemented and tracked providing a true picture of its success.

Measure Success

The Suggestion Place provides you with the tools you need to not only obtain great suggestions, but more importantly help you review and implement them. This will allow you to track both short and long term success for each implemented suggestion.

Feedback

The Suggestion Place provides a framework for organisations to track the lifecycle of all suggestions. Each suggestion goes through a review process and has feedback provided regardless of whether it is implemented or not. The feedback to all suggestions is critical to the 'buy in' of stakeholders and the overall success of the program.

Collaboration

Generate suggestion topics for discussion amongst your team. Allow cross department/location input to ensure the best possible outcomes.

The Suggestion Place can help your organisation unite even if your people are worlds apart, by enabling initiatives that are in one location today to easily become standard procedure throughout all locations tomorrow. The possibilities are endless.

People Powered Innovation

The Suggestion Place allows you to address all or a select group of your workforce to request all types of suggestions for targeted improvements or whole company objectives. Once captured the best practice workflow engine enables you to assess the viability of these suggestions and ranks them in order of preference against pre-set criteria, to ensure that they are aligned with corporate objectives and goals.

People are the key to success for organisations. The Suggestion Place will ensure all stakeholders have a voice and their voice is heard.

Set a Challenge for your workforce to provide a suggestion that will guarantee reductions in cost or increases in revenue for your organisation and recognise their achievement.

Open up the lines of communication within your company like never before by providing a readily accessible channel for people to make suggestions, whilst enabling your evaluation team to provide fast effective feedback, ensuring that everyone is engaged and active.
